AVAILABLE**

INTRODUCTION

In the event of an emergency or disaster, early intervention and immediate action from Emergency Response Team (ERT) is absolutely critical. The ability for ERT members to handle emergency situations at an early stage will minimize damage to property and the loss of lives. ERT members should be trained in First Aid, Fire Fighting, and Rescue. These three components of skills are of extreme importance for an ERT member to master. Unfortunately though, to date most ERT receive very basic training in first aid while too much emphasis is given to fire fighting. The ability for the ERT to react in an emergency situation while controlling a fire, managing as well as caring for all victims involved in an effective manner is very crucial.

OBJECTIVE

1. To provide exposure to ERT members to the Malaysian Disaster Management system and the role of ERT during an emergency or disaster.
2. To provide basic knowledge and skills to ERT members on the application of Emergency Medical equipment and Search & Rescue equipment.
3. To provide the ERT members with the knowledge and skills in Managing Trauma and Advanced Fire Fighting.
4. To provide the ERT members with the knowledge and skills in Radio Communication and Documentation pertaining to emergency.
5. To combine the skills and ability to provide Emergency Response through simulated exercises.

PROGRAM OUTLINE

| Topics | Lectures, Demonstrations & Practical exercises |
|---|--|
| PROGRAM INTRODUCTION | 30 min |
| ORIENTATION AND DOCUMENTATION <ul style="list-style-type: none"> • Safety Guidance • Aim And Objectives | 30 min |

| TOTAL | 21 Hr |

TRAINER'S PROFILE

Hamdan bin Mohd Azmir is the founder of DANAZMIR CONSULTANCY. He is a qualified Safety & Survival Trainer, a certified EMT (Emergency Medical Technician) and a trained Camp Counselor. He has been involved with safety and health for more than 20 years since his days with the aviation industry. Hamdan joined Malaysia Airlines in 1981 as a Flight Steward and rose to the rank of Chief Steward before becoming Safety Instructor with the same company. After serving for more than 15 years, Hamdan became a Freelance Safety Trainer where he was extensively involved in Safety Training and Consultancy. In 1999 Hamdan joined Construction & Industrial Safety Training Centre (CONSIST CENTRE) as a Safety Training Consultant and Head of Offshore Safety Training Department. He later joined PELITA AKADEMI (a Ministry of Transport, Malaysia Approved Maritime Academy) in 2002 and subsequently started his own consultancy firm. Since then he has been providing safety training and consultancy services to various training centers mainly in the offshore, maritime and aviation industries. This includes Malaysia Maritime Academy or better known as Akademi Laut Malaysia (ALAM), a subsidiary of PETRONAS. Some of his notable projects include setting up and outlining training programs for CONSIST CENTRE, PELITA AKADEMI and ALAM in the field of Offshore Safety Training. Amongst the training modules he helped develop for these centers were Basic Offshore Safety and Emergency Training (BOSET), Helicopter Underwater Escape Training (HUET), Sea Survival Course, First Aid and Emergency Medicine related training programs. Apart From conducting training locally, Hamdan has also conducted training in Indonesia, Singapore Myanmar and Iran. He has also helped in carry out Safety & Health audits for Esso Production Malaysia Inc.

TRAINING FEE
